

CRYPTOBEXCHANGE (CBEX) WHITEPAPER

CBEX.EXCHANGE

OVERVIEW

CryptoBExchange is a brand new forward thinking blockchain Project that will create one site with three parts;

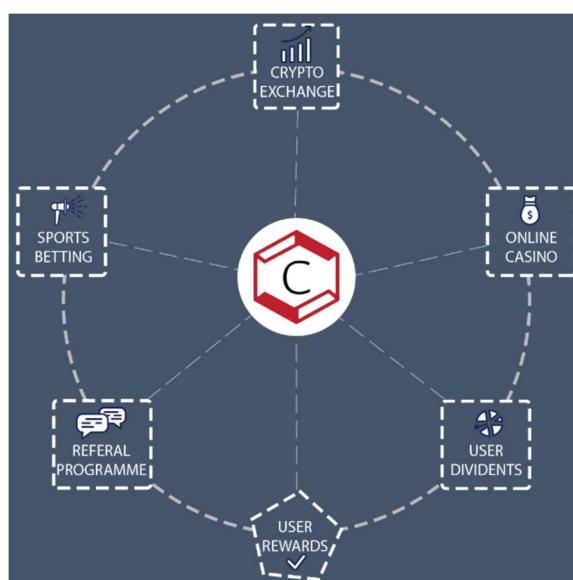

1. Cryptocurrency exchange.
2. Online sports betting.
3. Online casino.

GENERAL

We see this as a huge gap in the market that we plan to capitalise on. Currently, there are cryptocurrency exchanges, cryptocurrency betting sites and cryptocurrency casino sites. However, there is no all-in-one trusted site for these activities, and that's where CryptoBExchange comes in.

CryptoBExchange will have its own cryptocurrency, CBEX. CBEX will be used essentially to power all three elements of the business model. From purchasing and holding CBEX, users will receive discounted trading and withdrawal fees on the exchange, and discounted commission on sports and casino use within the site.

Additionally, there will be a dividend system in place to reward long term holders of the CBEX cryptocurrency. Details of this are covered further within this paper.

EXCHANGE APP

The first user platform of the **CryptoBexchange** site will be the CBEX cryptocurrency exchange. As with all traditional exchanges we will have an easy to use order book for buy/sells with a live market chart so users can see real-time market movements on the exchange.

CBEX CRYPTOCURRENCY EXCHANGE

SIMPLE AND EXPERIENCED TRADING

There will be an “simple” and “experienced” view for users to change between on the exchange. We will be implementing this to ensure that we are catering for all types of users; whether they are new to cryptocurrency trading, or seasoned traders.

The “simple” trading view will allow users to simply auto-buy cryptocurrency at the current market price on the exchange.

The “experienced” trading view will allow users to set their own buy/sell orders at their own designated prices, with the option to set stop/loss limits on trades.

HOW WILL PROJECTS BE ABLE TO LIST AN ASSET ON CRYPTOBEXCHANGE?

There will be 2 ways that projects will be able to list their cryptocurrencies on CBEX;

- **Community voting:** Every month we will allow our community to vote for which coin/token they would like to be listed. The project with the most votes will be listed.
- **Project recognition:** If at CryptoBexchange, we notice a project and can see that it is integral and has bright future we will list it on the exchange.

HOW WILL CBEX BE USED WITHIN CBEX.EXCHANGE

CBEX will be the native cryptocurrency on the site. Users will be able to transact and play on all areas of the site with the CBEX token, this will include;

- Trading on the exchange platform.

THE BENEFITS OF CBEX BEING AN ERC20 TOKEN – A UNIQUE BLOCKCHAIN NETWORK

The advantages of CryptoBexchange (CBEX) being an ERC20 token based on the Ethereum blockchain are;

- Uniform and fast transactions.
- Transaction confirmations are more efficient than stand-alone coin blockchains.
- There is a reduced risk of the contract breaking.
- The function implemented in ERC20 to help the web client to interact with the token and block-chain runs efficiently and fast.
- There are a vast variety of wallets already available for the storage of ERC20 tokens.

ARTIFICIAL INTELLIGENCE

In accordance with the development of neural networks, we have generated our own AI.
